EDUCATION

Humber Polytechnic
Visual and Digital Arts
2024-2026
95%

University of Toronto (St. George)
Honours Bachelor of Science
Specialist in Computer Science
2013-2020
4.0/4.0 cGPA

SKILLS

Languages:
Python, Typescript, JavaScript, C, HTML/CSS, PHP

Frameworks/Runtime Environments:
React JS, Node.js, Express.js, jQuery, Laravel, Vue.js

Systems, CMS & Databases:
Docker, PostgreSQL, MongoDB, Git, Knex.js, Ansible, Kubernetes

Testing Frameworks:
Cypress, Jest, pytest, unittest

AWARDS HONORS

Top 10 graduate in a Canadian computer science or engineering university (2019)
The Logic

Outstanding Undergraduate Researcher Honorable Mention (2017)
Computing Research Association

EXTRACURRICULARS

Humber Visual and Digital Arts Club (2025-2026)
Founder and President

Toronto Undergraduate Research in Computer Science (2017-2019)
Founder and Co-president

TECHNICAL EXPERIENCE

Square
Software Engineer (E-Commerce) — April 2023 - Aug 2024

- Led implementation of a tax compliance feature supporting new Japanese invoicing regulations, addressing a critical churn risk affecting 85% of Japanese online sellers.
- Developed REST API endpoints to integrate Square's order management platform with Weebly's legacy transactional email system, supporting cancellation and refund notifications.
- Contributed to engineering design documents and REST API specifications for the email migration, including endpoint naming, request payload design, and integration with existing email workflows.

Kepler Communications
Software Developer — Jan 2021 - April 2023

- Reduced processing time by 97% by building Python automation services for satellite–ground station communications.
- Automated testing and deployment of worker processes using Docker, Kubernetes, and Ansible.
- Mentored a junior software developer and introduced a buddy system to support onboarding of new engineers.
- Co-chaired the Women's ERG.

TouchBistro
Junior Full Stack Developer — May 2020 - Jan 2021

- Built a reusable JWT-based authorization library in TypeScript, Node.js, and Express.js, adopted as a core component across TouchBistro APIs.

RESEARCH AND TEACHING

University of Toronto Dynamic Graphics Project Lab
Human-computer Interaction Researcher — Jan 2017 - Apr 2020

- Contributed to two peer-reviewed publications at leading venues through research in virtual reality and user experience.

University of Toronto
Help Centre Director and Teaching Assistant — Sept 2014 - April 2020

- Coordinated computer science help-centre teaching assistants; led tutorials, supported students, and graded coursework.
