EDUCATION

Humber Polytechnic
Visual and Digital Arts
2024-2026
95% average

University of Toronto (St. George)
Honours Bachelor of Science
Specialist in Computer Science
2013-2020
4.0/4.0 cGPA

SKILLS

Languages:
Python, Typescript, JavaScript, C, Go, HTML/CSS, PHP

Frameworks/Runtime Environments:
React JS, Node.js, Express.js, jQuery, Laravel, Vue.js

Systems, CMS & Databases:
Docker, PostgreSQL, MongoDB, Git, Knex.js, Ansible, Kubernetes

AWARDS HONORS

Top 10 graduate in a Canadian computer science or engineering university (2019)
The Logic

Outstanding Undergraduate Researcher Honorable Mention (2017)
Computing Research Association

EXTRACURRICULARS

Kepler Communications Women's ERG (2021-2022)
Co-chair

Toronto Undergraduate Research in Computer Science (2017-2019)
Founder and Co-president

TECHNICAL EXPERIENCE

Square
Software Engineer (E-Commerce) April 2023 - Aug 2024

- Developed REST API endpoints to integrate Square's order management platform with Weebly's legacy transactional email system, supporting cancellation and refund notifications.
- Led implementation of a frontend tax compliance feature supporting new Japanese invoicing regulations, addressing a critical churn risk affecting 85% of Japanese online sellers.
- Contributed to engineering design documents and REST API specifications for the email migration, including endpoint naming, request payload design, and integration with existing email workflows.

Kepler Communications
Software Developer Jan 2021 - April 2023

- Designed and implemented Python-based scheduling services using REST APIs, caching, and automated background jobs to coordinate satellite–ground station communications, reducing processing time by 97%.
- Containerized worker services using Docker and automated deployment and orchestration with Ansible and Kubernetes.
- Mentored a junior software developer and introduced a buddy system to support onboarding of new engineers.

TouchBistro
Junior Full Stack Developer May 2020 - Jan 2021

- Built a reusable JWT-based authorization library in TypeScript, Node.js, and Express.js, adopted as a core component across TouchBistro APIs.

RESEARCH AND TEACHING

University of Toronto Dynamic Graphics Project Lab
Human-computer Interaction Researcher Jan 2017 - Apr 2020

- Contributed to two peer-reviewed publications at leading venues through research in virtual reality and user experience.

University of Toronto
Help Centre Director and Teaching Assistant Sept 2014 - April 2020

- Coordinated computer science help-centre teaching assistants; led tutorials, supported students, and graded coursework.
